*Weekly Coal Production* provides timely information on coal: current statistics on the production of anthracite, bituminous coal, and lignite are provided each week; monthly, quarterly, and annual statistics on coal consumption, production, stocks, imports and exports, and related supply and demand data are provided as they become available.

*Weekly Coal Production* is intended for use by the coal industry, the press, State and Federal Governments, policy makers, consumers, and analysts. Weekly coal production estimates are based on current trends in weekly rail carloadings of coal and current coal production trends as reported in *Coal Distribution* (Form EIA-6), monthly and quarterly coal production reports from State mine agencies, and *Coal Production Annual* (Form EIA-7a).

This publication is available on an annual subscription basis from the Superintendent of Documents, U.S. Government Printing Office. An order form is enclosed for your convenience. Send order form and payment to:
